WORK EXPERIENCE

Creative Assistant

Nov 2024 - Aug 2026

Tenerity

- Developed over 200+ responsive advertising banners using HTML5, CSS3 and JavaScript. Incorporated SVG Images, animations, incorporating dynamic content and advertising-platform tracking requirements.
- Managed digital marketing campaigns using Google Campaign Manager and Webloyalty, collaborating with international clients across Europe, North America, and South America.
- Created and maintained over 30+ publication-ready legal documents, applying established templates, typography, formatting, and layout standards while supporting client requirements.

Front End Web Developer

Dec 2021 - Oct 2024

One Document Corporation

- Developed over 5 responsive informational websites using React, Tailwind CSS, and Bootstrap, focusing on usability and responsive UI/UX.
- Revamped and rebuilt a previously scrapped website using WordPress, improving its UI and overall visual design.
- Created Figma mockups, high-fidelity prototypes, and front-end designs for projects including SAHI, SAPPI, and E-Agro, supporting consistent user-focused digital experiences.

EDUCATION & CERTIFICATIONS

CompTIA Security+ Training 2026

RivanCyber Training Institute Inc.

Completed 2026

- Applied foundational cybersecurity concepts, including threat and vulnerability assessment, risk management, defense-in-depth, and security hardening.
- Configured and secured enterprise networks, including VLANs, port security, administrative access controls, Fortinet firewalls, Windows Server, and Active Directory.
- Performed hands-on penetration testing, DNS and network traffic analysis, malware analysis, and security monitoring using Wazuh and Zabbix, including log analysis, alert triage, file integrity, and vulnerability monitoring.
